'N' WELD**

- 23 mm – 103 mm (1" – 4")
- UV & temperature resistant
- Cost saving and simple solution

Silicon Purge Bung Kit 1" – 4"

PURGE N' WELD

Silicon Purge Bung Kit 1" – 4"

Product Description

This reusable alternative to tape and foil will provide an air tight seal for efficient argon purging and provide the best results every time. The high temperature silicon combined with our gas diffuser inlet to reduce argon consumption, guarantees Purge'N'Weld really is the perfect purging solution.

What's in the kit?

The set contains six pairs of bungs to suit different pipe diameters. A gas diffuser, quick release coupler, and a purging tube are also included in the kit. The kit comes in our heavy-duty Cougartron orange case with a practical handle and foam inserts.
